

Community Rebuilders

Rebuilding Hope, Ending Homelessness and
Creating Community

What Do We Do?

Housing Focused Outreach

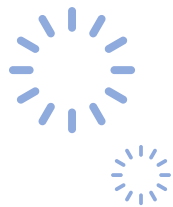

Connect persons experiencing unsheltered homelessness to housing without pre-requisites

Sustainable Housing
An affordable, safe, and secure home

Voluntary Support Services
The right amount of support services to help someone succeed

Everyone can find housing with the right supports. We can house people with the right resources at the right time

What Drives Our Work?

-
1. Strengths Based
 2. Housing First

Why Housing First?

Stop the costly cycle of homelessness. Consider the human cost as well as the costs on healthcare, law enforcement, neighborhoods, and businesses.

Addressing Unsheltered Homelessness Through Geographically Targeted Outreach

WHAT IS IT?

Reduce unsheltered street homelessness in a specific geographic area identified by the City as “high risk.” Provide housing focused outreach, temporary accommodations, and permanent housing along with site restoration

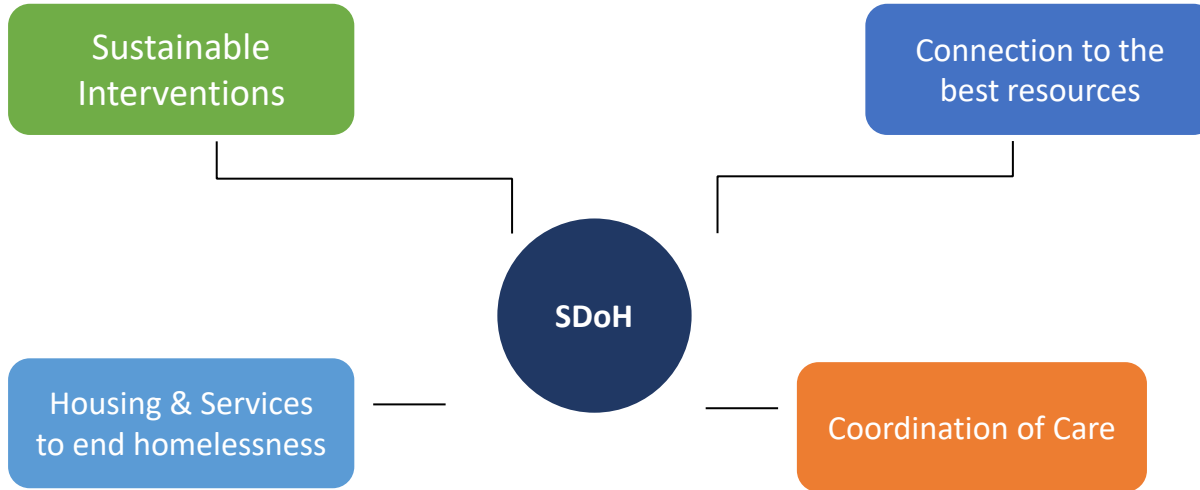

GOALS

1. To connect individuals who are unsheltered to housing and services
2. Restore and maintain streets and encampment areas to their intended purpose

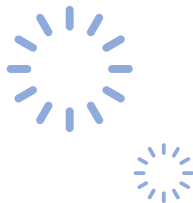

Beyond Just Housing

Promoting Long Term Sufficiency

UPSTREAM THINKING TO END HOMELESSNESS

Prevention: Reduce inflow

Shift in Strategy: Assessing housing risk, and connecting economic and other SDOH supports

Shift in Collaboration: Shared system and process (Coordinated Entry)

Shift in Data: From what we think is happening to what IS happening
